Reduce Your Environmental Impact with RCWaste!

Our department is committed to educating the public on waste reduction and sustainability. We offer courses taught by professional instructors available live throughout the year and on-demand. Join us to become a more informed and environmentally conscious citizen!

Backyard Composting, Vermicomposting, & Make Your Own Worm Bin	<p>Take your gardening game to the next level! Discover the benefits of composting, the process of turning organic waste materials into a soil amendment</p>
Climate Change	<p>Ready to uncover the science behind climate change? Explore the causes, environmental and social impacts, and ways to take climate action</p>
Environmental Justice	<p>How does the human built environment impact public health? Learn the concepts of EJ, an expanded view of the environment outside the scope of conservation</p>
Food Waste - Food Rescue	<p>What's the difference between food waste and wasted food? Get schooled on food rescue 101 and discover tactics to slice down on waste as you shop, cook, or dine out</p>
Green Cleaning	<p>Say goodbye to toxicity! Explore the benefits of using eco-friendly cleaning products made from ingredients in your pantry.</p>
Green Landscaping	<p>Don't let your garden drain your resources! Learn the art of sustainable landscaping - a pocket-friendly and more efficient way to keep your green space eco-friendly</p>
Making Your Home Zero Waste	<p>Explore the basics of zero waste and sustainability – what is zero waste, waste creation, and strategies to reduce waste in every room of your home</p>
Recycling 1-2-3	<p>Join the recycling revolution! Discover effective ways to sort your recyclables and how to handle waste that cannot be placed in your curbside bin</p>

Document available in alternative formats upon request.
